

## Parents 19 and younger.....

We are enrolling expectant moms and parents 19 or younger with children ages 0-3 in a Home Based Early Head Start Program.

We offer weekly home visits that are fun and informative, these visits can be located wherever parents are comfortable (in the home, the library, park, etc.) We also offer playgroups for children and parents.

If you are interested in more information please contact me below and I will get back to you as soon as possible . Leave a message if I am unavailable. You can reach me by phone, e-mail, in person, whatever best meets your needs.
